I'm a highly motivated frontend developer with a strong interest in UX/UI design and a background in healthcare and youth work. Crafting visually appealing products and collaborating with equally passionate people is what drives me.

FEATURED PROJECTS

PLANTMAMA

A fullstack houseplant-care app built in React and Redux on frontend, Node.js, Express and MongoDB on backend. I collaborated with a fellow Web Developer student as well as a UX Design student.

EXPERIENCE

TECHNIGO WEB DEVELOPER BOOTCAMP

Jan 2023 - Jun 2023 (6 months)

An intense bootcamp with weekly projects covering programming fundamentals and web project structuring using the latest technology. Agile methodology was applied through sprint planning, check-ins, and demos. Significant focus on Mob- and pair-programming throughout the course.

OFFICE MANAGER - GRANIT OY

Jan 2022 - present (1 year, 8 months)

Efficiently managed office expenses and inventory. Resolved operational challenges with strong problem-solving abilities. Ensured accuracy in tasks such as invoicing, shipping, and inventory maintenance. Maintained the company's website.

EDUCATION

UNIVERSITY OF HELSINKI

Sep 2018 - Jun 2022 (4 years)

Master of Social Sciences - Sociology

During my master's studies I specialized in sociology of work and organizational theory. I also developed an interest in men's studies, ethnic relations and immigration, and the structural dynamics of power.
